GERMANIA
DIE MÖBELMACHER

New packaging for your customer experience

GERMANIA has been working for quite some time on optimizing the packaging for our new products. Unlike the previous packaging, the new packaging will not only be dropshipable but also sustainable.

With the help of the project „Dropshipable and sustainable packaging“ , GERMANIA is pursuing several goals: The primary goal is, of course, customer satisfaction. With the reduction of transport damages we reduce the number of returns and complaints considerably. In addition, we intend to integrate the new packaging into our sustainable product concept and thus support our project „EiNS SEiN,“ which focuses on the themes of simplicity, sustainability and beauty.

By achieving these goals, we would like to solidify our position as a reliable partner for you.

To be specific, the project will be carried out as follows: By replacing styrofoam with cardboard packaging, we not only increase the quality of the packaging, but also create a sustainable solution for the environment. Based on the results of a test in the laboratory, we were able to conclude that by changing the packaging, we can significantly reduce our complaints that arise due to transport damage.

With the beginning of this year, the new packaging will first be introduced for a total of three checkroom programs. All subsequent programs will be packaged in the same way.

If you have any questions on this subject, you are welcome to consult your designated contact person.

GERMANIA
DIE MÖBELMACHER

We are one:

Simple is our cooperation.

Sustainable is our thinking and acting.

Beautiful is our furniture.

The future of GERMANIA:
Simple. Sustainable. Beautiful.

A great deal is said about sustainability, sometimes more than it is acted upon. Both in private life and in business, sustainability is playing an increasingly important role. We at GERMANIA are taking our own approach: in a triad of sustainability, simplicity and beauty. With this combination we hope to become unbeatable as a brand in the market of disassembled furniture.

Sustainability is an important topic that should be close to all of our hearts, as it is essential for the preservation of our environment. That is why we at GERMANIA strive to set a good example and to continuously make our company more sustainable.

It is not only our goal to conserve natural resources as much as possible, but also to ensure the durability of our company and to create a pleasant working environment for our employees.
